Four Ways to Use MAP Growth Assessment Data Beyond Student Growth

Are you using MAP Growth to its fullest potential? After seeing their students grow exponentially, Panhandle Elementary School in Texas, has decided to explore other benefits MAP Growth data could offer. Click the link below to read their story: <https://www.nwea.org/blog/2019/four-ways-to-use-map-growth-assessment-data-beyond-student-growth/>

Done Testing, Now What?

Here are a few things you can do to inform your instruction between now and the Spring Assessment:

Educators: Use the Student Profile to view learning statements (matches the Learning Continuum) and to develop a personalized learning path for your students.

https://teach.mapnwea.org/assist/help_map/Content/Data/SampleReports/StudentProfile.htm#Instruct

Administrators: Use the Class Breakdown Report to evaluate the impact of rapid guessing across all grades.

https://teach.mapnwea.org/assist/help_map/Content/Data/SampleReports/GradeBreakdown.htm

Don't Forget to Close Your Winter Testing Window!

Did you know you have to **manually** close your testing window after each testing season? When you close your testing window, your summative reports and mean RIT calculations are all generated, and it will ensure your staff will have access to the full battery of reports the following day. To close the window: Log into [MARC](#)>Modify Preferences>Manage Terms>Select the 2018-2019 School Year>View/Update>Mark Test Window Complete for the Winter term>Submit.

MAP Growth: RIT to Concepts

You can now match RIT to concepts. NWEA has designed word lists to help you teach concepts that students are ready to learn. These words and concepts directly correspond with learning statements in the MAP Reports. The RIT to concept list now includes MAP Growth K-2 and MAP Growth Science. [View Now](#)

MAP Growth: Looking at Growth

Have you registered for your third MAP Reports training session? Even if you are not in your first year of using MAP, this course is a great refresher on using the Growth Quadrant report. Click the link below to register today.

Report Spotlight: Achievement Status and Growth Report

Looking for a report, based on national norms, that provides summarized comparison between two terms? The Achievement Status and Growth (ASG) Report shows projections for goal setting, achievement and growth summary, and an interactive quadrant chart to help you visualize your students' growth and achievement comparison. Check out the Report: [Click Here!](#)

How Florida Private Schools Are Using Assessments and Data to Make Great Academic Gains for Low-Income Students

Our own Dr. Carol Macdeonia had an article published in The 74 on the success of our MAP schools! Check it out here: <https://www.the74million.org/article/macedonia-how-florida-private-schools-are-using-assessments-and-data-to-make-great-academic-gains-for-low-income-students/>
