## Do You Want FREE Science Materials for Your Classroom?

The first 12 teachers to respond with the information below will win some awesome science materials for their classroom!

**Lakeshore**®

High-Quality Educational Products Since 1954

Lakeshore Learning and Step Up For Students are all about the new S.T.E.M. (Science Teachers Earning Materials)! As we begin a new school year, teachers are excited to implement new strategies for teaching science. But, with all their money spent on new classroom supplies, how can teachers get more materials to make their science classes the most engaging in the building? Lakeshore Learning and SUFS are here to help! Teachers must email [officeofstudentlearning@stepupforstudents.org](mailto:officeofstudentlearning@stepupforstudents.org) and include: 1) Name, 2) School Name, and 3) School Address. The **first 12 teachers to respond with all the above information** will win some awesome science materials for their classrooms! Visit [Lakeshore Learning](http://Lakeshore Learning) to explore their classroom materials.
